How can we help? \*

we appreciate that you have left our watermark intact on your displaying of them on your site (which inadvertently advertises my site) but would request some further action on your behalf . This is so there is full compliance with the copyright.

Firstly, can you please enable image protection on the images because you are inadvertently distributing our images. Secondly, can you please put an attribution link below where the image is displayed in appreciation for using our images.

This is at least one link where a [christianwallpaperfree.com](http://christianwallpaperfree.com) image is displayed without image protection and an attribution link. <https://www.blogtalkradio.com/god-empowered-ministries/2020/07/24/prayer-gods-way-of-communication>

We had actually found at least one more but thought since its only one and you were displaying the watermarks we thought no harm and would overlook it. However, if you are going to be displaying multiple images it becomes a case of you inadvertently distributing not just one image, but multiple images.

Can you please advise of when you have corrected this situation so we can remove you off our review list. We look forward to your co-operation in this matter.

Kind Regards

Joshua Halls
